It’s soon time to request a school for autumn term 2027

This information is available in English, Somali and Arabic. Go to www.norrkoping.se/skolval to read the information in these languages.

If you have a child who will be starting **year 7 in the autumn of 2027**, you need to request a school for your child. All year 6 pupils in municipal and charter schools can choose a school and it is important that you, as a parent or guardian, proactively make your choice. You don't need to request a school if your child is in year 6 at a school where they can continue to year 7 and they want to stay at the same school.

Submit your school preferences between 8 January and 24 January

Submit your school preferences in the School Choice e-service. Link to the e-service is available at www.norrkoping.se/skolval. Log in to the e-service and submit your school preferences between 8 January and 24 January 2027. You can request as many schools as you like. Request and rank only those schools that you would like your child to attend.
When you log in via the e-service, you sign the application using an e-ID, such as Mobile BankID. Both guardians must sign for the application to be valid.

If you want to apply for a place at an independent school

If you are interested in a charter school, you need to apply directly to the charter school **and** also submit your preference in the School Choice e-service. It is important that you do both of these steps in order to be admitted. Contact the school in question to find out what their admission rules are.

Rules for those who qualify for admission

If you have applied to a municipal school, we will consider your preferences as far as possible. If the school does not have available places for all students who have applied, a priority ranking system is used to decide who is admitted to the school. The distance from the child's residence address to the desired school is very important for admission. Read more at www.norrkoping.se/skolval.

If you do not actively choose a school, your child will be admitted to one of the municipal schools with places available and within a reasonable distance from your home.

Decisions on school places will be announced in March 2027

You will be notified in March which school your child has been admitted to. The notification will be published in the School Choice e-service and you will receive a text message or e-mail when there is a notification available. Log in via the e-service to access the notification.

School transport

School transport only goes to certain schools, so-called transport-covered schools. If there is no school within a reasonable distance from home, the child can get a school bus to their transport-covered school. In the e-service, you can see if your child has a transport-covered school and which school it is. If you want to make sure to have a school bus, you should request a transport-covered school for your child. Read more about school transport at norrkoping.se

Do you have any questions or do you need help?

Visit www.norrkoping.se/skolval for more information as well as questions and answers. For example, here you can find information about which municipal and charter schools are available in Norrköping and which rules apply to the admission of year 7 pupils to municipal schools.

You can also contact Contact Norrköping at 011-15 00 00. You can also visit Contact Norrköping at Trädgårdsgatan 21 in Norrköping.

Thank you for submitting your school preferences!

Kind Regards
Education Office, Norrköping Municipality
